## North Dakota **Bonds Refused** By Banks Here SAMUEL MARX, Auctioneer

Financiers Declare State Regime "Revolutionary" When Its Agents Offer

handle bonds of North Dakota, according to Spurgeon O'Dell, special representative of the Bank of North Dakota, who, with William C. Lemke, Attorney General, came here for the pur-

said they believed the present political power in North Dakota is "revolutionary." Mr. O'Dell said yesterday.

Attorney General Lemke and Mr. O'Dell were sent here under official instructions to seek a market for one third of the \$19,000,000 bond issue authorized by the North Dakota Legislature in 1919 to be devoted to the construction of state-owned mills, elevators and other utilities. The bonds in question are of 6 per cent and exempt from Federal and state taxation.

Mr. O'Dell said that having been unable to find a market for the bonds here efforts will be made to dispose of them among the citizens of North Dakota Heights.

"The present administration of North Dakota has been tarred and feathered," said Mr. O'Dell. "Because we have sought to construct a government along lines of direct benefit to the farmers and the people we are accused by the grain corporate interests and others of being anarchistic, socialistic and revolutionary. Those opposed to the administration, built up by the Non-partisan party, which has been upheld in all the courts, have carried on a campaign of abuse, calumny and slander. I thought Wall Street dictated, but I find it is the other way. The bankers we interviewed agreed that the bonds were gilt edge, but they said 'we cannot touch them because you people up there are revolutionary."

are revolutionary.
"The people of North Dakota are de-termined to stand by the program as enacted by the Non-partisan League, and if we go down it will be with colors

## Capper to Renew Fight On Gambling in Grain

From The Tribune's Washington Bureau From The Tribune's Washington Bureau WASHINGTON, April 9.—Senator Capper, of Kansas, announced to-day that as soon as Congress reopens he would introduce again his anti-grain gambling bill. He said it was designed to "eliminate the gambling features of grain trading, particularly on the Chicago Board of Trade," which he calls the "greatest gambling house in the world."

The bill has a number of new features, designed to meet criticisms and

tures, designed to meet criticisms and to make the bill unobjectionable to legitimate grain and milling interests. Representative J. N. Tincher, of kansas, will present the bill in the

House.

"As revised my bill will, I believe, meet the approval of the legitimate grain and milling interests," said Senator Capper. "It does not interfere with legitimate hedging. This is accomplished by limiting the buying and selling of futures absolutely to those who are regularly engaged in the grain or milling business. The bill places the grain exchanges under supervision of the Bureau of Markets of the Department of Agriculture, which will confine what speculation there is in grain to the regular boards of trade. This will end the activities of the private wire houses, where 95 per cent of the real gambling is done.

"The other great evil of the grain.

## Europe's Finances Not

WASHINGTON, April 9.—Financially and economically the situation throughout the world improved but little in March, with few signs of better conditions to come according to cabled summaries received to-day by the Bureau of Foreign and Domestic Commerce.

In Europe tight money, unemployment and unsatisfactory industrial and shipping conditions, declines in prices

shipping conditions, declines in prices for and slight revival of building activities from were noted. In the East the situation structure of the structure of was described as somewhat easier, while in South America conditions

while in South America conditions were reported as virtually unchanged. Business depression in Great Britain has increased, owing to the prospective failure of an early settlement with Germany of the reparations question. The Russian trade agreement is not expected appreciably to benefit business. American exports to France continue to show marked reductions.

Foreign investment capital, directed largely to railroad improvement, is going into China. The money situation is easier in Japan.
